

Distanziale lavastoviglie

Dishwasher spacer bar

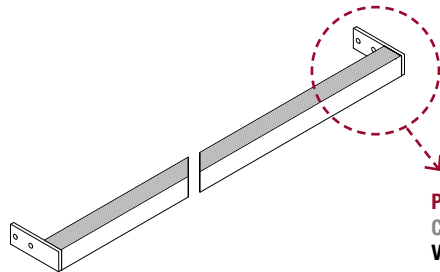

IT

Il nuovo distanziale a fissaggio rapido è la soluzione ideale per il corretto montaggio delle lavastoviglie da incasso. Progettato per essere fissato tra i due mobili laterali, garantisce il mantenimento della distanza esatta, evitando deformazioni o disallineamenti. Grazie a questo supporto, l'installazione della lavastoviglie risulta semplice e precisa, permettendo di ottenere un perfetto allineamento dell'anta frontale con il resto della cucina, già predisposto per i sistemi di fissaggio zoccolo Scilm.

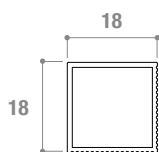

EN

The new spacer with quick fixing is the ideal solution for the correct installation of built-in dishwashers. Designed to be fixed between two cabinets at the sides, it ensures that the correct distance is maintained, thus preventing any deformation or misalignment. With this support, dishwasher installation is easy and precise, allowing the front door to be perfectly aligned with other kitchen units, for a flawless aesthetic result. Compatible with Scilm plinth fixing systems.
